Construction on both outside lanes of the road for about 2 miles. The drop-off is severe and pavement has been ground down. The **Pro races** are limited to the center lanes inside the protection of the caravan and to the right-most paved lane if outside the caravan. **Men 1-2** are limited to the right-most paved lane.

There is a large crack running with the roadway in the center of the road on the bridge. The organization will try to have this filled by the time the races arrive, but please exercise caution.
